Title: ROLE OF BIOMETRICS IN DATABASE

Category: Webinar

Date: 23-11-2020, **Time:** 12:00pm

No. of Resource Persons: 01

No. of Participants: 239

Organizers: Department of Computer Science & IQAC

Resource Person: Dr. Chander Kant, Associate Professor in Computer Science, Kurukshetra University, Kurukshetra, Haryana.

Mode: Online.

Objective: This Webinar on **ROLE OF BIOMETRICS IN DATABASE**, aims to provide the knowledge about importance of Database and how biometrics plays a vital role in acquiring ones authentic data.

Report: The Department of Computer Science & IQAC of the college have organized a webinar on ROLE OF BIOMETRICS IN DATABASE on 23-11-2020 at 12:00 pm on our college YouTube channel. The Program started with the welcome speech by our Honorable Principal Dr. D V. Honagannavar, followed by a brief introduction about the webinar and the resource person by Dr. Alstyn Victor. K. HOD Department of Computer Science.

The session kick-started at 12:00pm with the welcome speech and introduction and was further taken over by the resource person Dr. Chander Kant, Sir explained about the importance of biometrics, how authentic are they in establishing ones secure identity which can also be considered as one among top level security measures thus adopted universally, he also emphasized on what exactly is the database and how important it is in processing the required information and what manner the data gets stored in the database, all the technicalities required in creating, accessing, securing & monitoring the database were completely covered, the webinar concluded by proposing vote of thanks with heartfelt gratitude thanking the Management,

Principal, Staff, delegates and all those involved directly or indirectly in the successful execution of the webinar, feedback link was shared to all the participants on their respective e-mails as well as in the group created, after the successful submission of the feedback E- Certificates were issued to the participants.

Outcome: The participants have acquired knowledge of the different types of databases, their structural arrangement and how human senses can be acquired as an authentic identification towards data security. The participants obtained thorough knowledge about the skillsets, mappings & the applications involved in processing biometrics to obtain user sensory data for their authentication.
