POLICY ON QUALITY AUDITS

Green, Energy and Environment Audit add to the quality culture of the institution along with concern for the Environment. Our policy is to have quality audits on all aspects on the campus.

- To ensure sufficient greenery, trees are planted; garden and lawns are maintained to sustain eco -friendly environment in the campus. This redefines our environmental culture.
- Installing panels to generate solar energy to minimize power consumption and reduce the cost of Electricity.
- Quality in all parameters of education including Sports and Social Responsibility is our priority.

GREEN AUDIT

This is to certify that, *our Audit Team* has visited K.L.E society's **JG College of Commerce Hubballi, 580 021** on 20th Aug 2022 and undertook the Environment Audit work of college campus.

The college is located in HUBBALLI-DHARWAD city Corporation limits. The twin cities together make the second largest city in Karnataka by population. The twin cities are selected for **solar cities /green cities** in the year 2017 by **Govt of India**. Hubballi-Dharwad cities are emerged as an educational hub in north Karnataka. Both cities are semi organized Industrial cities. It seems to be free from industrial harmful gas effluents.

Most of the significant plants in the campus are identified and nomenclatured.

The list is enclosed,

1. Total number of trees : 69 (nomenclatured).
2. Total number of tree species : 32 (nomenclatured).
3. Medicinal plants :29 (nomenclatured).
4. Rare plants : 2 (nomenclatured).
5. Endangered plants - 09 (nomenclatured).
6. oxygen oozing plants 10 (nomenclatured).
7. Sacred plants : 5 (nomenclatured).
8. Ornamental plants : Lot many.

"My college My plant" an innovative program to nourish the plants has been popularized. Staff and students have taken some plants to nourish at their own cost.

The campus is lush green and most suitable Academic developments.

Energy Audit Report 2021-22

ENERGY AUDIT

This is to certify that, *our Energy Audit Team* has visited K.L.E society's JG College of Commerce Hubballi, 580 021 on 20th Aug 2022 and undertook the Environment Audit work of college campus.

The college is located in HUBBALLI-DHARWAD city Corporation limits. The twin cities together make the second largest city in Karnataka by population. The twin cities are selected for **solar cities /green cities** in the year 2017 by Govt of India. Hubballi-Dharwad cities are emerging as an educational hub in north Karnataka. Both cities are semi organized Industrial cities. Both cities seems to be free from industrial harmful gas effluents.

The Energy Audit is a retrospective survey and analysis of energy requirements. The energy conservation principles have been adopted with minimal use of energy judiciously .I.e

**"Whenever necessary
and
Where ever necessary use electric power".**

All the energy requirements are collected from each and every class room, laboratory, office, staff common room, library, *computers lab* etc.

A separate log sheet of energy consuming appliances is made ready for ease of energy management. An energy sensitization awareness program is developed among the staff and students.

Need of Energy Audit

- To minimize the cost of energy consumption
- To minimize the operational costs
- To minimize the cost of maintenance

ENERGY AUDIT METHODOLOGY

The Audit involves visiting physical position of load and to carry out the inventory of load. Due measurements of electrical load of requirement and adequate circuit is carried out . Energy bill received from HESCOM is audited and analyzed ,various positions of energy. Present requirements are judged and finalized. Energy conservation and saving opportunities are identified, proper circuitry plans are implemented.

HESCOM CONSUMER BILL for the last five years have been analyzed

Analysis follows on separate sheet. The energy sensitization programs are notified among the staff and it is found that there is decline trend in use of electrical power(very judiciously) without affecting the routine work of college activities.

There are seven power connection nodes provided with separate meters.

Graphical analysis of use of power meter wise, and total bill wise (consolidated) has been worked out .

The analytical data is as follows

| S.No | Year | Average Power units consumed | Remarks |
|--|------|------------------------------|---|
| 1 | 2017 | 6560 | A graphical analysis shows that there is initial decremental trend in the beginning. |
| 2 | 2018 | 5881 | |
| 3 | 2019 | 7448* | It is found that there is " <i>decline trend</i> ", in the two last year because of infra structure developments |
| 4 | 2020 | 6812 | |
| 5 | 2021 | 5904 | |
| **Achievement | | | - 26.12 % as compared to 2019 |
| *Note : optimum utilization max consumption of electric power in the year 2018, 2019,2020 ,is because of infra structure developments. Later there is a conservation of electric energy (Adopting modern electric appliances) | | | |

It is observed that roof top solar energy harvesting units are installed in campus. Because of this facility the college is getting electric bills as per HESCOM norms.

** Decline trend indicate practicing "use of electric power is done judiciously". This is reflected from the EXCEL graphical analysis sheets.

"Save Soil by Isha Foundation"

This campaign was organized by the Department of Post Graduate Studies in Commerce of the college in association with Isha Foundation, Coimbatore, Rotaract Club of Hubballi, NSS Unit and YRC Wing. This marks the significance of the Save Soil Movement started by Shri. Sadhguru through a lone ride across 27 countries in 70 days meeting Presidents and Prime Ministers of the nations. "Save Soil" is one of the noted issues of world including India, as the organic content in the soil is depleting and not able to sustain at the minimum of 3% but it is very hard to know the fact that the organic content is less than 0.5% which will lead to shortage of food and nutrition by 40% in the next 35 years. Appealing for a voice to be raised by the worthy citizens of India and other nations by Voice and not just by Vote which will tend to induce the political leaders and groups to take strict action in saving the soil by framing legal policies and practices by every individual, farmers, agricultural sectors, organizations and other stakeholders. We cordially invite you all to this awareness campaign organized on 6th June, 2022 @ 11:30 AM at our college auditorium in the campus. The programme is open for all. The workshop marked a participation of 312 students and faculties along with volunteers and invitees.

The Campaign was led by the Volunteers of Isha Foundation:

**Roopa, Geeta, Shailaja,
Anand, Manjunath, Kiran and Akshay.**

Outcome of the Workshop:

The volunteers addressed the gathering by indicating the purpose of this movement through videos, presentations and jingles. The motive of this workshop was on how to raise voice to involve in the internationally promoted Save Soil Movement by Sadhguru which was achieved successfully by the students, faculties and other stakeholders that the use of social media is the major key in giving the movement a positive outcome. The tools of social media such as Emailing to the ministry of concerned departments, Twitter Tagging, Instagram Mentions, Facebook Posts, WhatsApp Surveys etc were discussed and briefed on actions. The volunteers from Isha Foundation also conducted fun dance and entertainment activities with the Save Soil Song to celebrate the cause and let the purpose reach the ultimate decision makers. The students of all ages are reached by these awareness campaigns.

AYUSH VANA- Cultivation of General and Prioritized Medicinal Plants

01.08.2020

The Youth Red Cross Unit of K.L.E Society's J G College of Commerce, has Organized and launched an extensive Plantation Programme i.e. "AYUSH VANA- Cultivation of General and Prioritized Medicinal Plants" on the occasion of 74th Birthday of Dr. Prabrakar Kore, Honorable Chairman, K. L. E. Society's, Belagavi.

Honorable Chairman's birthday was celebrated in a noble and befitting manner by conducting a unique tree plantation programme.

The most striking feature of this event was to create awareness regarding the importance of Medicinal Herbs and having easy access to such traditional medicine plants by maintaining them in garden and the same can be used for maintaining good health and develop required immune system.

The programme was inaugurated by the Principal by planting a different variety of medicinal saplings namely Tulsi, Ajwain, Marrva, Kidney plant and Murray. All the staff and students were provided with saplings to plant them at the selected spots in the college garden and surrounding areas. They also watered the saplings and made fencing to protect them

The "Waste management project" competition was organized for all NSS volunteers under the banner of "SWACHHI BHARAT SUMMER INTERNSHIP 2019". Participants came up with a plan on how to treat the daily waste at homes.

From 1st July to 5th July NSS Volunteers organized Swachhta Melas/ Exhibition on Local Waste Management Technologies in the college premises, where students and general public visited.

The main aim was to create awareness regarding how to utilize the existing wastes into productive use. "The idea was to make waste management look hygienic and pristine, not a mess it is generally perceived to be," in this regard our students have prepared various models and charts and explained as to how we could practice and adopt in an innovative way.

The same models gave a clear picture of local waste management with least cost benefit, where the same can be put to practice easily by both rural and urban areas.

NSS volunteers prepared charts and models and demonstrated the use.

D.O.No. 14-S/2014(CPP-II)

3rd January, 2020

Dear Madam/Sir,

As you are aware Swachhata Pakhwada was started with a vision to mainstream swachhata activities across the Higher Educational Institutions (HEIs) of India. The programme has seen enthusiastic implementation by the HEIs. Now for the year 2020 the Swachhata Pakhwada will be observed from 16th Jan to 31st Jan, 2020. During this period certain Swachhata related activities are to be undertaken by HEIs and its affiliated colleges. Detailed list of such activities is enclosed as Annexure I.

You are, therefore, requested to conduct various activities in your esteemed University and its affiliated colleges to observe Swachhata Pakhwada. Further, I would request you to kindly send the date-wise report of the activities undertaken during this period along with photographs (size 2-5 MB) on email swachhtapakhwada2020@gmail.com and on UGC University Activity Monitoring Portal (<https://ugc.ac.in/uamp/>).

I look forward to your enthusiastic implementation of Swachhata Pakhwada.

With kind regards,

Yours sincerely,

(Rajnish Jain)

Encl: as above

Action taken and Achievement Report on Clean and Green campus initiatives

An Education Institution requires a clean and green campus in this regard our Institution has clearly maintaining with the efforts of our menial staff. Our NSS and NCC students undertake cleanliness drives periodically. So that the campus is maintained clean and neat.

Students are trained and advised to dispose garbage in the dustbins placed on the corridors and in the classrooms.

Classrooms are dusted and cleaned daily by the designated menial staff. Dried and dead leaves are swept and dumped into garbage pit.

NSS unit organized Swachhta pakhwada activities which includes cleanliness drives, plantation etc. A week long University Swachhta Camp was organized in the Institution wherein NSS Volunteers and Programme Officers from various colleges have participated and contributed for Swachhta and Greenery. The programme also included talks by the resource persons on cleanliness, health and hygiene. Brain storming sessions on the importance of cleanliness were the part of the Swachhta Camp.

On the occasion of NSS Day and World Environment Day plantation activity is undertaken on the campus.

As a result of these initiatives we possess a clean, green and beautiful campus.

LETTER OF APPRECIATION

We congratulate the work of NSS volunteers under the guidance of Prof. V.S. Kattimath, NSS Program Officer of KLE's J.G. College of Commerce in enabling the people of far-off residential areas to immerse the Ganesha idols in the mobile water tank arranged by them.

It is a novel initiative taken by the NSS unit for more than a decade in enabling the public to bid farewell to Lord Ganesha after the festival.

With the wells and the rivers in the locality bearing a retreat, water bodies in the twin cities have diminished for a great extent. The NSS volunteers adequately facilitated by Principal Dr. D.V. Honagannavar are doing a great service to humanity by providing mobile water tank service.

LAKSHA VRUKSHA YAGNA REPORT

The importance of forests cannot be underestimated. We depend on forests for our survival, from the air we breathe to the wood we use. Besides providing habitats for animals and livelihoods for humans, forests also offer watershed protection, prevent soil erosion and mitigate climate change.

Forest conservation is the practice of planting and maintaining forested areas for the benefit and sustainability of future generations.

The forest is a natural habitat and home for many animals. It's vital to preserve this habitat because it is where animals can escape from the danger and find food, water, and shelter. Moreover, forests contribute to climate stability and provide food for animals who live there or depend on them for their livelihoods.

The forests can be conserved in the following manner:

1. Introducing afforestation programs.
2. Controlling forest fires.
3. Proper utilization of forest resources.
4. Proper care should be taken to protect the forests from pests and diseases

In order to protect and preserve we took up the initiative of creating man made forest at Anchargeri, Forest Department, Hubballi

ESTABLISHED AND ACCREDITED BY UGC AT A GRADUATE AND POST GRADUATE LEVEL

'**Laksha Vruksha Yagna**' is an initiative for creating a man made forest - The clearest way into the Universe is through a Forest Wilderness. Our aim was to plant 1,00,000 saplings over 65 Acres of land but due to certain constraints we could plant only 30,000 saplings at Anchargeri Forest Department, Hubballi on 29th June, 2022.

As a part of 'Laksha Vruksha Yagna' On 8th July, 2022 NSS volunteers organized Environmental Programme at Government School, Nekar Colony, Hubballi and also distributed saplings to staff.

On 9th July, 2022 NSS volunteers organized Environmental Programme at Government School, Kirekur and also planted saplings in the school premises and distributed saplings to the staff.

On 18th July, 2022 NSS volunteers organized Environmental Programme at Government School Veerapur Oni and also planted saplings in the school premises and distributed saplings to the staff.

Forests provide the house for many living beings. Thus, it is one of the precious resources provided by nature to human beings. In order to protect and preserve the environment this initiative has been taken up.

I am glad to say few words about a person whom I know personally, true to his profession. Indeed it is a matter of pride for a person like me, a follower of Sri Swami Vivekananda.

He is discharging his duties in various capacities. As a teacher, is a friend, philosopher and guide to his fellow students. A source of inspiration and has been an instrumental many poor & meritorious students to get scholarships and other facilities on their way to achieve their best, apart from his personal help from his pocket.

As an NSS officer, was successful in igniting the young minds, their socio-cultural responsibilities, by means of organising camps in a meaningful manner:

Inviting eminent personalities and experts in a way the students to get exposed to good things and deliver the best to the fellow beings, the public.

He is instrumental in inventing a unique idea of creating a mobile water tank, which goes to various places in the city to get their Ganesha Idols immersed, in order to preserve Mother Nature. I personally appreciate this idea.

He is also instrumental in motivating students to collect money from the public and help the flood affected people in North Karnataka during the year 2013-14.

He hails from a highly cultured and spiritually affluent family background.

I would appreciate the organisation or system, which recognises people like him and supports to serve the society at large.

I pray divine Mother to bless him to serve the society at large and look forward the student community which is in the cross roads to get inspired, motivated and guided by such personality.

With special Prayers,

Yours in the service of divine Mother

REPORT

Having realized the importance of trees in the lives of human beings our NSS volunteers engaged themselves in planting the trees in adopted villages.

We have launched a long term ambitious project "LAKSHA VRUKSHA YAGNYA" which is planting of One Lakh trees to come.

As a part of this project seed balls are also distributed to the tourists during rainy season.

Objectives:

- To maintain oxygen level
- To control global warming

Outcome:

'A plant for a household' has helped the rural folks to maintain plant and nurture a sapling until it becomes a grown up tree. Plantation activity is extended to the nearby localities and adopted villages to add to the green belt in those areas.

One day cleaning drive was conducted at Shri Siddhroodh Math . The main purpose of this Drive was to create awareness among the volunteers regarding cleanliness and its benefits. With zest and zeal, the enthusiastic volunteers steered the cleanup drive to success through their efforts.

This kind of activity is held every year by our college to inculcate the habit of keeping their surroundings clean in them. Twenty eight volunteers took part in the drive along with two Programme Officers who led and guided them. With brooms, buckets, bleaching powder they cleaned both the sides of the road. Watching the clean surroundings the local people became so happy that they gave words to maintain such kind of cleanliness all the time of the year.

Good response to eco-friendly idol immersion initiative

Staff Correspondent

HBH: An initiative by volunteers of the National Service Scheme (NSS) of J.G. College of Commerce here, towards the eco-friendly celebrations of the Ganesh festival, was well-received by Hubli residents.

The initiative, pursued by NSS volunteers every year during the Ganesh festival, is into its third year. Residents have also begun cooperating with the volunteers in the eco-friendly celebrations. The initiative was started by the college's NSS officer V.S. Kottimath in 2010 and is a small step towards eco-friendly immersion of the Ganesh idols installed in various households in the city.

Every year, NSS volunteers convert a tractor trolley into a mobile tank and encourage residents to immerse idols in it.

Arrangements

"We make arrangements for the traditional immersion of the idols by providing the vehicles required for the group. We request that car/drink immersion only the idols, and remove garlands and other paraphernalia which we keep in a separate container,"

BETTER WAYS: A Ganesh idol being immersed in a mobile tank in HBH. - PHOTO: SOHAM BHALLE

Prat. Kottimath said. The solid waste generated would be disposed of at an old student's farmstead on the outskirts of the city, where it is converted into compost. In 2011, this year, a group of around 30 NSS volunteers took the mobile tank around various localities in Akshay Park and

Global Road on Sunday, and urged people to immerse idols in an eco-friendly manner.

The programme, which began at 9 p.m. and ran till 11 p.m., received a positive response. Residents of 100 households immersed idols in the mobile tank.

REPORT

They keep the climate stable, oxygenate air and transform pollutants into nutrients. Birds play an important role in the effective functioning of these systems. As birds are high up in the food chain, they are also good indicators of the general state of our biodiversity. Over a decade ago, it used to be a common thing but nowadays it is a rarity. Therefore, this environmental awareness campaign has been designed to grab people's attention and make them aware of conserving and protecting birds
