REPORT ON EMPLOYERS FEEDBACK ON CURRICULUM

2021 – 22

The feedback mechanism is perhaps one of the most powerful ways to make employees feel valued and their contributions matter. It is also a full proof way to connect, build a rapport and strengthen the relationship.

The feedback was collected from different employers on Institutional contribution towards students' performance. Employers expressed the responsibility of the employee has towards the goals, mission and vision of the organisation he/she is associated with. Level of Professional, Ethical and Social responsibility helps companies attract and retain a healthy environment in the workplace. Majority of the employers expressed that employees are free and open minded to the operational and functional management.

Through a multidisciplinary approach, a student gains different skill like problem solving, critical thinking, time management, communication, analysis and research methodologies that transforms one's obligation towards his/her service. Employers manifested that overall quality of the employees is up to the mark and they also suggested that syllabus of the Karnatak University, Dharwad needs to be updated on regular basis as per the global requirements.
