Give More Real Life Examples

Nothing yet

Nothing

Creative teaching needed

Need More practical examples in class

Usage of advanced technology

Give Practical knowledge

Some new things should be adopted while teaching

Boost sports

The teaching is to the point ,
The lecturer's show almost interest in making the concept clear to the students,
Teaching is good , so according to me there is nothing to suggest

Can improve

The Lectures/Teachers Must Be Well Experienced For Degree Colleges But There Are Only Few Experienced Members And They Divide The Lectures In Two Parts Where Some Of The Divisions Get Better Lectures Of Some Subjects And Remaining Subject Lectures Will Be Bad In Teaching If One Lecture Of One Subject Teaches For All Divisions It Will Be Better To Study Because Even If Students Do Combined Study Even They Get Confuse Which To Learn Because Lectures Use Methods To Teach

1. A better subject choice for OEC subject would be beneficial for score and understanding.
2. As per particular faculty of choosing subjects the study material and the teaching quality should be improved .
3. Implement ICT tools for better teaching is suggested.

1. A better subject choice for OEC subject would be beneficial for score and understanding
2. As per particular faculty of choosing subjects the study material and the teaching quality should be improved
3. Field visits and more exposure to practical field learning is recommended

It is a good teaching institution

Nothing in particular

Give more examples for particular topic
While explaining the practical subjects slowly explain

Use projector for teaching

Take attendance regularly
Tech some skills

I don't think so I am able to give

Use of lcd projector, giving more examples etc while teaching

Different types of sums in practical subjects
Using projector for better understanding
More examples

Nothing

Teaching language should be kannada and english

Not to make the class boring by targeting students and insult them and I request them to share notes on time. As some people won't attend classes so we need notes through online

There should be some practical knowledge to us while in some subjects, they should show some PPT for better understanding to the students with examples

Teachers can teach better than this

Best

1. More classes for improve your studies

Teaching with repetition after the completion of the syllabus
Teaching with more examples and technology based examples
Teaching with the language which the students can understand and using more English
whole teaching and talking in English with the students can improve the talking skills and understanding skills of the students

1. Use projector and PPT while teaching
2. Ask questions about the lesson before start the lesson which lesson they want to teach

To be strict with practical education

To be strict with the attendance so that students actively participate in all activities with the studies.....

Everything is good

Good

Need more new technology to learn like use of projector 🎧 teaching is good 😊👍.

01. Make attendance compulsory so that every student attend the classes properly.
02. Complete syllabus quickly and conduct internal exams early so that students can get time to prepare for sem examinations
03. College should be strict.

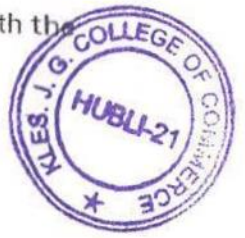

All curricular activities are good but some more facilities built-up.
