**7.2 - Best Practices**

7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

**BEST PRACTICE - I**

**Title of the practice: Environment Perpetuality.**

1. **Objectives of the Practice:** The idea behind the tree plantation activity is to propagate the message into students & the general public that planting trees helps maintain a clear eco-friendly environment thereby reducing pollution and improving green ambience. Trees are the foremost source for producing oxygen in the environment, they help in reducing the level of CO2. As global warming is on the rise, trees aid in resolving the issue and maintaining the ecological balance and assisting the serenity of nature by providing shelter to the declining bird species.

**BEST PRACTICE - II**

1. Title of the practice: Stray Domicile (A rescue shelter for the strayed animals).
2. Objectives of the Practice: The ideology behind this practice is to propagate the message into students & the general public to show humanity not only towards the specific breeds but also towards the stray and stranded animals too. The fauna around us not only include the specific breeds but also strays around that beautify the environment, often the non-breed are always left unattended thereby creating imbalance in the ecology and hence in the Institution in association with a group of students have come up with this initiative of providing shelter and care to the stranded and left out fauna.
